

PROCEEDINGS OF SPIE

International Conference on Mechanical Design and Simulation (MDS 2022)

**Dongyan Shi
Guanglei Wu**
Editors

**18–20 March 2022
Wuhan, China**

Organized by
Harbin Engineering University (China)

Sponsored by
AEIC Academic Exchange Information Center (China)

Published by
SPIE

Volume 12261

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12261

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Conference on Mechanical Design and Simulation (MDS 2022),
edited by Dongyan Shi, Guanglei Wu, Proc. of SPIE Vol. 12261, 1226101
© 2022 SPIE · 0277-786X · doi: 10.1117/12.2642195

Proc. of SPIE Vol. 12261 1226101-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Mechanical Design and Simulation (MDS 2022)*, edited by Dongyan Shi, Guanglei Wu, Proc. of SPIE 12261, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xv *Conference Committee*

Part One

MACHINERY MANUFACTURING TECHNOLOGY AND INDUSTRIAL ROBOT APPLICATION

- 12261 02 **Research on test method for fuel consumption of heavy-duty commercial vehicles** [12261-5]
- 12261 03 **The study of center of gravity adjustment technology based on inclination test of ship**
[12261-23]
- 12261 04 **Optimal monitoring position of rotary-steering downhole ranging** [12261-204]
- 12261 05 **Study on optimization and fluid distribution uniformity of manifold in mechanical ventilation system** [12261-211]
- 12261 06 **Sealing characteristics optimization of double ferrule pipe joint with FEA nonlinear analysis**
[12261-217]
- 12261 07 **An improved line-of-sight guidance law for path following of unmanned surface vehicle based on adaptive lookahead distance** [12261-202]
- 12261 08 **Analysis of meso-mechanism of ice damage under two loads of underwater explosion**
[12261-225]
- 12261 09 **Technical research on the scheme of designating special areas in China's coastal areas based on AIS** [12261-230]
- 12261 0A **Submarine coating damage diagnosis based on underwater electric field** [12261-93]
- 12261 0B **EHA elliptical vessel head forming analysis and parameter optimization** [12261-125]
- 12261 0C **Simulation research on random vibration stress of quadrotor unmanned aerial vehicles**
[12261-135]
- 12261 0D **Optimization research on tooth root transition curve of involute plastic gears** [12261-13]
- 12261 0E **Coupling analysis of thermal-solid deformation for spiral groove mechanical seal** [12261-61]
- 12261 0F **Application of CNC machining technology in machining and manufacturing** [12261-146]

- 12261 OG **State estimation and verification of five-axle heavy-duty special vehicle based on EKF** [12261-46]
- 12261 OH **The flow field analysis of bipolar plates with radial spiral groove in proton exchange membrane fuel cell** [12261-147]
- 12261 OI **Research on robot machining path planning technology for NURBS surface** [12261-32]
- 12261 OJ **An optimization method of a wheeled off-road vehicle with hydropneumatic suspension using SIMULINK** [12261-51]
- 12261 OK **Feasibility study of a new magnetic levitation shaftless propeller** [12261-29]
- 12261 OL **Effect of wave type defects on edge crack propagation of cold rolled strip** [12261-81]
- 12261 OM **Application of RBI for pressure relief valve in-service** [12261-55]
- 12261 ON **The research of simplification methods of boundary condition for legs of the offshore platform** [12261-122]
- 12261 OO **Research on a clamper suitable for rapid clamping of rocket ammunition box** [12261-37]
- 12261 OP **Finite element simulation analysis of six axis industrial robot** [12261-140]
- 12261 OQ **Study on mechanical safety risk early warning in machine use stage** [12261-166]
- 12261 OR **Joint simulation of the kinematics of a gecko-like quadrupedal wall-climbing robot based on SIMULINK and ADAMS** [12261-58]
- 12261 OS **Research on in-situ calibration technology of multidimensional force for space docking mechanism buffering test-bed** [12261-56]
- 12261 OT **The influence of storage door type on air permeability of cold storage** [12261-27]
- 12261 OU **Research on optimization of airflow organization in constant temperature fruit and vegetable storage** [12261-68]
- 12261 OV **Analysis of energy saving technology for central air conditioning water system operation** [12261-4]
- 12261 OW **Analysis on influencing factors of hydrofoil cavitation characteristics** [12261-24]
- 12261 OX **Environmental and economic evaluation of the interaction between the vessels charging stations and the power grid** [12261-183]
- 12261 OY **Study on the configuration of skimmers for small-scale ship oil spill emergency incidents considering marine ecological loss** [12261-236]
- 12261 OZ **Introduction and future outlook of the 3D printing technology** [12261-172]

- 12261 10 **Research on the emissions of China VI light-duty vehicle under different altitude** [12261-171]
- 12261 11 **Development overview of Russian ballistic missile and missile defense system** [12261-26]
- 12261 12 **Research of organometallic ultrafiltration membranes for the treatment of oily sewage from vessel** [12261-226]
- 12261 13 **Dangerous sources and safety protection strategies in the process of gas generator inspection** [12261-170]
- 12261 14 **Research on an abnormal heating fault of main hydraulic oil tank of a certain type of aircraft** [12261-33]
- 12261 15 **Research on torsional characteristics of closed interference fit diaphragm coupling** [12261-129]
- 12261 16 **Study on combustion process of ramjet combustor ignition** [12261-19]
- 12261 17 **Research on feasible technology for dust pollution prevention and control of green bulk cargo terminal** [12261-235]

MECHANICAL DEVICE PERFORMANCE AND DEVICE OPTIMIZATION DESIGN

- 12261 18 **Volatile industrial organic waste gas treatment device using microwave catalytic oxidation technology** [12261-178]
- 12261 19 **Introduction of a deformation detecting and positioning device for elevator landing door** [12261-52]
- 12261 1A **Research on task scheduling method for ship-oriented collaborative design and manufacturing** [12261-182]
- 12261 1B **Effect of heave damping on energy extraction performance of fully passive oscillating hydrofoils** [12261-234]
- 12261 1C **Optimization design method for marine gearbox's vibration and noise reduction** [12261-227]
- 12261 1D **Effect of laser power and scanning speed on microstructure and performance of TC4 alloy formed by selective laser melting** [12261-210]
- 12261 1E **Research on a remote boom deployment device for near-shore oil spills** [12261-220]
- 12261 1F **Simulation and test of solid rocket motor ignition device** [12261-66]
- 12261 1G **Study on optimal design of serpentine pipe bend** [12261-28]
- 12261 1H **Design and simulation of membrane soil separation device for residual membrane pickup** [12261-134]

- 12261 1I **An optimal design method of reproducing a given trajectory for planar four-bar linkage** [12261-20]
- 12261 1J **Optimal design of deployment mechanism of spaceborne umbrella deployable antenna** [12261-104]
- 12261 1K **Performance-based design optimization of steel braced frames using a deformation-enhanced particle swarm optimization** [12261-101]
- 12261 1L **Design and application of anti-blocking pressure opening hole blast device in ultra-deep and ultra-high pressure well** [12261-156]
- 12261 1M **Design and simulation of high speed mechanical switch model** [12261-21]
- 12261 1N **Study on the effect of temperature on the performance of rubber shock absorber** [12261-95]
- 12261 1O **Construction of a product design model based on multi-scenario FBS-QFD** [12261-139]
- 12261 1P **Design of sandwich piezoelectric transducer** [12261-96]
- 12261 1Q **A design method of JDAM ballistic fast solver** [12261-107]
- 12261 1R **Structural design and finite element analysis of 2-ton helium expansion refrigeration hydrogen liquefaction vacuum cold box** [12261-36]
- 12261 1S **Design and analysis of initiative variable spoke mechanism for planetary rover wheeled mobile system** [12261-126]
- 12261 1T **Design and analysis of the mechanical structure of multifunctional intelligent food vending machines** [12261-89]
- 12261 1U **Optimization design of composite rod lay-up for deployable truss structure** [12261-72]
- 12261 1V **Innovative design of lightweight wall material forming machine** [12261-88]
- 12261 1W **Anti-vibration design of surface mount devices in the aerospace electronic equipment** [12261-43]
- 12261 1X **Optimization design of a bracket based on on-orbit operating environment** [12261-74]
- 12261 1Y **Optimization analysis of SMA components for artificial detrusor** [12261-77]
- 12261 1Z **Experimental optimization design of matching layer for high frequency transducer** [12261-44]
- 12261 20 **Optimal design of spaceborne antenna supporting structure with loadbearing barrel-brackets configuration by topology optimization method** [12261-127]

- 12261 21 **Analysis on radiated sound characteristics of lateral thrusters** [12261-65]
- 12261 22 **Design and analysis of double plough body mechanism of sugarcane subsoiler** [12261-47]
- 12261 23 **Research on agricultural equipment design method based on MBSE** [12261-53]
- 12261 24 **Current research and development of dynamic force calibration devices at home and abroad** [12261-57]
- 12261 25 **Optimum design of extrusion machine for wall panel** [12261-154]
- 12261 26 **On-orbit performance stability analysis of typical spaceborne high-gain parabolic antenna** [12261-123]
- 12261 27 **Design and vibration test of vibration isolation system for road transportation of optoelectronic equipment** [12261-45]
- 12261 28 **Design and research of pilot seat for civil airplane** [12261-87]
- 12261 29 **Research on civil aircraft ETOPS type design and approval** [12261-8]
- 12261 2A **3500DWT non-ballast water ship design** [12261-212]
- 12261 2B **Fracture analysis of high-strength bolts connecting tower and tube in wind power plant** [12261-71]
- 12261 2C **A designed method of active phase program angle for improving the safety of missile rudder wreckage** [12261-179]
- 12261 2D **Design of a new water-saving irrigation plant based on heat convection inclusion tracts** [12261-175]
- 12261 2E **Underground vertical storage bicycle device** [12261-174]
- 12261 2F **A research on submersible transformer** [12261-12]
- 12261 2G **Feasibility study and analysis on the improvement of mechanical overspeed protection device of a thermal power turbine unit** [12261-7]
- 12261 2H **Structural design of thermally driven vehicle based on Stirling engines** [12261-34]
- 12261 2I **Research and design of the special curved plug gauge** [12261-141]
- 12261 2J **Topology analysis and design of planetary gear automatic transmission based on lever method** [12261-11]

MECHANICAL POWER STRUCTURE AND AUTOMATIC CONTROL TECHNOLOGY

- 12261 2K **Energy management strategy for hybrid electric vehicles based on double Q-learning** [12261-169]
- 12261 2L **Vibration analysis of composite laminated annular/circular sector plate based on the Reddy's Higher Order Shear Deformation Theory** [12261-203]
- 12261 2M **Research on tightening bolt mechanics of subsea clamp connector** [12261-209]
- 12261 2N **Study on the electric actuator output force characteristics of genipin cross-linking** [12261-239]
- 12261 2O **Kinetic scheme analysis and mechanical study of subsea clamp connector** [12261-199]
- 12261 2P **Splicing and kinematic analysis based on tensegrity with curved bars** [12261-185]
- 12261 2Q **Reliability analysis of subsea Christmas tree structure based on fuzzy fault tree** [12261-189]

Part Two

- 12261 2R **Research on control method of parallel semi-active heave compensation system** [12261-232]
- 12261 2S **Study of structural characteristics of ring-stiffened cylindrical shell using multivariate approaches** [12261-193]
- 12261 2T **Multi-objective optimization of underwater towed system during course-keeping motion** [12261-197]
- 12261 2U **Research on the influence of vibration isolation structure on marine gearbox vibration and noise reduction** [12261-190]
- 12261 2V **Influence of different materials and plate thickness on vibration characteristics of ship plate structure** [12261-196]
- 12261 2W **Analysis of dynamic characteristics of composite laminated plate under underwater explosion** [12261-187]
- 12261 2X **Study on failure mechanism of interference fit between gear and hollow shaft** [12261-200]
- 12261 2Y **Preparation of low surface energy antibacterial coatings with micro-nano structure and the application prospects of the coatings in marine anti-biofouling** [12261-205]
- 12261 2Z **Analysis of ship motion under different effects** [12261-218]

- 12261 30 **Strength analysis and structural optimization of ultra-high pressure common rail of diesel engine** [12261-18]
- 12261 31 **A crane trolley structure design and finite element analysis** [12261-3]
- 12261 32 **Study on spinning forming method of elliptical section thin-walled parts** [12261-136]
- 12261 33 **Design of T22/800H transition joints through thermodynamic and kinetic modeling** [12261-17]
- 12261 34 **Research on improved suction cup structure based on finite element method** [12261-90]
- 12261 35 **Study on the shimmy stability of aircraft nose landing gear with the radial and axial clearance at torque link connection** [12261-138]
- 12261 36 **Research on the precision control of the metering and filling of fine rubber powder** [12261-103]
- 12261 37 **Modeling and simulation of dynamic milling force for cast titanium alloy using flat end mills** [12261-98]
- 12261 38 **Mechanical modeling and compression test of sesame seed based on 3D laser scanning technology** [12261-121]
- 12261 39 **Design of a multi-joint tail fin driven bionic robotic fish and its hydrodynamic analysis** [12261-35]
- 12261 3A **An improved method to requirement analysis of automated cuttings equipment based on MBSE** [12261-64]
- 12261 3B **Topological structure design of three-row series-parallel seven-speed automatic transmission** [12261-42]
- 12261 3C **A gantry crane mechanical structure and electric control system design based on a new lifting mechanism** [12261-60]
- 12261 3D **Analysis on door's Jitter problem based on inverse sub-structuring analysis method** [12261-161]
- 12261 3E **Vibration source identification of aircraft wing based on the levels of human body vibration comfort at different locations** [12261-158]
- 12261 3F **Design and kinematics analysis of buffering/walking integrated lunar-based equipment** [12261-99]
- 12261 3G **Three-dimensional stress analysis of titanium alloy tool joints under complex loads** [12261-137]
- 12261 3H **Design of pneumatic control system for automatic ice-sugar gourd string device** [12261-59]
- 12261 3I **Study on structure rules for mining vessels** [12261-198]
- 12261 3J **Control system design for thermal performance of solar collectors** [12261-39]

- 12261 3K **Analysis on the influence of wheel wear of EMUs on vibration transmission of bogies** [12261-153]
- 12261 3L **Influence of sleeper spacing on mechanical properties of cast-in-place steel spring floating slab track bed** [12261-54]
- 12261 3M **Research on the automatic assembly for a precision TR module** [12261-92]
- 12261 3N **Dynamics performance test and study on the vibration of bogie of a type AH metro vehicle** [12261-165]
- 12261 3O **Study on relationship between tread equivalent conicity and vibration of bogie for EMU** [12261-163]

COMPUTATIONAL MODEL DRIVEN AND NUMERICAL SIMULATION ANALYSIS

- 12261 3P **Research on the application of ship exhaust gas monitoring in the supervision of fuel sulfur content compliance** [12261-216]
- 12261 3Q **Research on mechanism model of extraction process of trailing suction dredger** [12261-208]
- 12261 3R **Depth camera-based algorithm for visual recognition and automated polishing of ship components** [12261-221]
- 12261 3S **Model identification method of intervention AUV system based on numerical simulation** [12261-224]
- 12261 3T **Research on shipboard material scheduling optimization based on improved genetic algorithm** [12261-219]
- 12261 3U **Numerical simulation of flat plate structure with passive heave compensator entering in splash zone** [12261-231]
- 12261 3V **Study on cavitation mechanism of external flow field of dual chamber self-excited oscillating pulsed nozzle based on numerical simulation** [12261-194]
- 12261 3W **Optimization of shipyard dock hoisting process based on improved genetic algorithm** [12261-223]
- 12261 3X **Experimental acceleration data processing and analysis of reinforced cylindrical shells** [12261-228]
- 12261 3Y **Health status assessment of submarine cables based on multi-state quantity fusion** [12261-184]
- 12261 3Z **Hangar-exporting optimization schedule of shipborne helicopter based on genetic algorithm** [12261-241]
- 12261 40 **Numerical simulation on drag reduction characteristics of concave corner microstructure of springtail cuticle** [12261-206]

- 12261 41 **Ship detection with lightweight network based on YOLOV3** [12261-201]
- 12261 42 **Application of genetic algorithm incorporating simulated annealing to ship compartment layout** [12261-242]
- 12261 43 **Real-time optimization of drilling parameters based on cone bit drilling speed model** [12261-73]
- 12261 44 **Optimization of spinning process parameters for elliptical section parts** [12261-133]
- 12261 45 **Numerical and experimental investigation on a two-stage reentry turbine** [12261-117]
- 12261 46 **Numerical simulation of pre-stressed laser shock peening forming** [12261-118]
- 12261 47 **Finite element numerical analysis on ultrasonic testing of bolt stress** [12261-157]
- 12261 48 **Study on the effect of spike-aerodome model of slotted drainage on drag reduction and heat protection of hypersonic blunt body** [12261-160]
- 12261 49 **Calculation method of SLD collection efficiency for three-dimensional complex configuration** [12261-62]
- 12261 4A **Bibliometric-based visualization knowledge graph analysis of smart factory** [12261-116]
- 12261 4B **Optimization of semi-active suspension LQR parameters based on local optimization with a skipping out particle swarm algorithm** [12261-124]
- 12261 4C **Numerical simulation of internal flow field in a precision nozzle** [12261-48]
- 12261 4D **Research on calculating aerospace single machine products mean time between failures using timing truncation method** [12261-31]
- 12261 4E **Analysis and optimization design of front wheel alignment parameters of commercial vehicle based on ADAMS** [12261-132]
- 12261 4F **Analysis of key deformation error sources for multi-flexible body models** [12261-70]
- 12261 4G **Numerical simulation study of the effect of weld current on WAAM welding pool dynamic and weld bead morphology** [12261-142]
- 12261 4H **Application of computer-aided design and computer-aided engineering in hydraulic press design** [12261-76]
- 12261 4I **Analysis of comb straightening mechanism for pins of electronic components and influence of key parameters** [12261-159]
- 12261 4J **Calculation and analysis of wing flutter velocity with control surface** [12261-85]

- 12261 4K **Calculation method for fluidic thrust-vectoring dual throat nozzle** [12261-9]
- 12261 4L **Numerical study of engine wakefield during shipborne aircraft taxiing** [12261-108]
- 12261 4M **Numerical study on transient phenomena of an adjustable transcritical CO ejector** [12261-25]

MODELING SIMULATION ANALYSIS AND EXPERIMENT RESEARCH TECHNOLOGY

- 12261 4N **Experimental study on friction characteristics of surface textured rubber slats on water-lubricated bearing** [12261-222]
- 12261 4O **Research on testing technology of temperature-pressure combination for subsea tree valves** [12261-181]
- 12261 4P **Simulation study on fretting wear of involute spline** [12261-233]
- 12261 4Q **Analysis and experimental research on reinforcement of partial damaged jacket with grouting sleeve reinforcement of partial damaged jacket with grouting sleeve** [12261-238]
- 12261 4R **Experimental study on vibration and noise reduction of transmission system under different laying materials** [12261-213]
- 12261 4S **Experimental investigation of the whip dynamic response of a cylindrical shell structure under underwater blast loading** [12261-186]
- 12261 4T **Analysis of the wave and sea flow forces on the grouting clamp and its loading tests** [12261-237]
- 12261 4U **Multi-objective simulation and scheme optimization of coal shipping support scheme based on particle swarm optimization** [12261-229]
- 12261 4V **Localization and practice of transient simulation software for complex hydraulic system** [12261-180]
- 12261 4W **Simulation study of DDoS attacks and remediation based on OPNET** [12261-38]
- 12261 4X **Research on digital design and simulation of factory based on SLP** [12261-75]
- 12261 4Y **Simulation analysis and research on dynamic characteristics of hydraulic bulging axle housing of commercial vehicle** [12261-86]
- 12261 4Z **A dynamic target loading method** [12261-105]
- 12261 50 **Intelligent stevedoring transport system based on visual recognition** [12261-69]
- 12261 51 **Simulation experiment analysis of micro servo mechanism** [12261-49]

- 12261 52 **Simulation analysis and research of printing cylinder of gravure printing press based on Adams** [12261-94]
- 12261 53 **Acoustic-structure interaction simulation of ship propellers based on COMSOL** [12261-40]
- 12261 54 **Modeling and simulation of coupling law of multi adjustable system of marine medium speed diesel engine** [12261-67]
- 12261 55 **Simulation analysis of polygon effect of engine timing chain trains** [12261-97]
- 12261 56 **Modelling and accuracy analysis of a cable-strut tensegrity mast** [12261-83]
- 12261 57 **Research on an infrared modeling method** [12261-110]
- 12261 58 **Design and simulation of manual screen cleaner** [12261-131]
- 12261 59 **Terrain modeling and simulation software** [12261-111]
- 12261 5A **Modeling and simulation of aircraft nose landing gear extension retraction system** [12261-106]
- 12261 5B **Mechanical properties test and simulation research of 3D printing lattice material struts** [12261-151]
- 12261 5C **Modeling and simulation analysis of radial piston motor with inner curve based on AMESim** [12261-63]
- 12261 5D **Research on simulation test method of CAN bus direct connection** [12261-143]
- 12261 5E **Research on the comparison of nuclear weapon test methods** [12261-173]
- 12261 5F **Simulation and experimental study on structural performance of cab of a new energy light truck** [12261-177]
- 12261 5G **Design and application of simulation test environment for cable tunnel patrol robot** [12261-176]
- 12261 5H **Experimental research on scraper cross discharge dry separator** [12261-30]
- 12261 5I **Experimental research on LNG ship's mooring** [12261-41]

Conference Committees

General Conference Chairs

JianAn Xu, Harbin Engineering University (China)

JingHua Li, Harbin Engineering University (China)

Ching Yern Chee, Universiti Malaya (Malaysia)

Executive Chair

DongYan Shi, Harbin Engineering University (China)

Executive Vice Chair

Nicholas Fantuzzi, Università di Bologna (Italy)

Technical Program Committees Vice Chairs

Aman Zhang, Harbin Engineering University (China)

Jianan Xu, Harbin Engineering University (China)

Jing Hua Li, Harbin Engineering University (China)

Svein Savik, Norges teknisk-naturvitenskapelige universitet (NTNU)
(Norway)

Technical Program Committees

Mingjun Zhang, Harbin Engineering University (China)

Kai Xue, Harbin Engineering University (China)

Liquan Wang, Harbin Engineering University (China)

Zuhua Jiang, Shanghai Jiao Tong University (China)

Cong Wang, Harbin Institute of Technology (China)

Zengtao Chen, University of Alberta, (Canada)

Nicholas Fantuzzi, Università di Bologna (Italy)

Yihan Xing, University of Stavanger (Norway)

Youngsoon Yang, Seoul National University (South Korea)

Yu Guang Zhong, Harbin Engineering University (China)

Jun Yan, Dalian University of Technology (China)

Wan-Hai Xu, Tianjin University (China)

Yuan Jiang Chang (China) University of Petroleum (China)

Xu Liang, Zhejiang University (China)
