

**EIGHTH ANNUAL
SYMPOSIUM
on
MICROLITHOGRAPHY**

September 21-23, 1988

Table of Contents

"PTB Activities for the Calibration of Two-Dimensional Length Standards for Microlithography" W. Haessler-Grohne, H. Kunzmann, R. Probst Physikalisch-Technische Bundesanstalt, Braunschweig Federal Republic of Germany.	5
"The Printability of 5X Reticle Submicron Defects" James N. Wiley, KLA Instruments.	21
"Mask and Reticle Acceptance in an ASIC Wafer Fab" Steven C. Weirauch, VLSI Technology, Inc.	37
"The Scribe Maker System: An Automatic Scribeline Generator and Scribe Artifact Placement System" Christina M. Smith, David S. Dailor, VLSI Technology, Inc.	43
"Progress Toward Total CIM for Photomask Shops" Norman A. Austin, AB Networks, Inc.	49
"Real Time Verification of E-beam and KLARIS Data Files" Kevin MacLean, Transcription Enterprises Limited.	55
"Fabrication of 16M DRAM Reticles using the Variable-Shaped EB System and the Data-Comparison Inspection System" Kouichi Moriizumi, Susumu Takeuchi, Kunihiro Hosono, Shuichi Matsuda, Miyoshi Yoshida, Akira Shigetomi, Yaichirou Watakabe, Mitsubishi Electric Corp., Japan.	61
"Recent Developments in Spin/Spray Mask Cleaning" James A. Reynolds, Reynolds Consulting; Alan Golob and Cathy Baker, Micro Mask Inc.	71
"The Use of Electrical Test Structures and Measurement Techniques for the Generation of 1X Reticles" Lynda C. Mantalas, Prometrix Corp.	91
"Resist Pattern Damage Caused by Electrostatic-Charge" Taketora BAN, Kanemitsu, Ysei Miyazono, Yutuka Miyahara, Takeshi Yoshizawa, Takao Furukawa, Fujitsu Limited.	99
"Dry Etching of Mask for the Megabit Technology" Guido Bell, BMP Plasmatechnologie.	109
"An Automated Approach to the Ever Increasing Demand of Mask Cleanliness" Hanspeter Reinhardt, Vladmir Stepanek Reinhardt Microtech Limited.	123

"Optimum Electron-Beam Exposure Voltage for Submicron Photomask
Fabrication"
Elaine H. Kung, AT&T Bell Laboratories133

"Automated Fabrication of E-Beam Masks"
Andreas B. Delmann, Siemens AG. 141

"A Method of High Precision E-Beam Reticle Making"
Masaji Asami, Tatsuhiko Yamao
Matsushita Electronics Corporation. 155

"A New Laser Based Raster Scan Pattern Generator"
Sven Lofquist, Gerhard Westerberg
Micronic Lasersystem AB.163
