

PROCEEDINGS OF SPIE

***International Conference on
Electronics, Electrical and
Information Engineering
(ICEEIE 2024)***

**Shengqing Li
Bin Hu**
Editors

**16–18 August 2024
Bangkok, Thailand**

Organized by
Hunan University of Arts and Science (China)
Hunan University of Technology (China)

Published by
SPIE

Volume 13445

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13445

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Conference on Electronics, Electrical and Information Engineering (ICEEIE 2024),
edited by Shengqing Li, Bin Hu, Proc. of SPIE Vol. 13445, 1344501
© 2024 SPIE · 0277-786X · doi: 10.1117/12.3058132

Proc. of SPIE Vol. 13445 1344501-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Electronics, Electrical and Information Engineering (ICEEIE 2024)*, edited by Shengqing Li, Bin Hu, Proc. of SPIE 13445, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

Part One

COMMUNICATION ENGINEERING

- 13445 02 **Advancing signal separation: a study of machine learning in low-frequency time code multipath signals** [13445-92]
- 13445 03 **Application of deep learning technology in performance optimization of communication system** [13445-110]
- 13445 04 **Intelligent control of building electricity based on intelligent Internet of Things and wireless communication technology** [13445-47]
- 13445 05 **Design and implementation of operation and control system for telephone channels** [13445-132]
- 13445 06 **Design of intelligent voice flower waterer system based on WeChat applet control** [13445-88]

ELECTRICAL ENGINEERING

- 13445 07 **Sensorless control of BLDCM based on STSMO** [13445-109]
- 13445 08 **Intelligent credibility evaluation calculation method for visual models for electric equipment inspection** [13445-75]
- 13445 09 **Construction of intelligent topology identification system for low-voltage distribution network based on machine learning algorithm** [13445-100]
- 13445 0A **Research on improving sagging control strategy based on distributed inverter** [13445-34]
- 13445 0B **Thermal electric coupling analysis of direct heating of oil shale by power supply** [13445-1]
- 13445 0C **Research on control strategy of grid-connected inverter for compressed air energy storage system** [13445-36]
- 13445 0D **Research on high-performance analysis technology of distribution network digital twin based on parallel acceleration** [13445-61]

- 13445 OE **Fault diagnosis of gearbox bearing of wind turbine based on ICEEMDAN-PE and GWO-LSSVM** [13445-44]
- 13445 OF **Research on the feedback braking optimization system of electric vehicle that makes full use of ground adhesion** [13445-115]
- 13445 OG **Lightweight method for cognitive large model of electric power equipment operation and inspection based on knowledge distillation** [13445-91]
- 13445 OH **Research on intelligent control algorithms and applications for mechatronic systems of robots** [13445-52]
- 13445 OI **Research on the application of computer vision technology in automatic detection of substation equipment** [13445-131]
- 13445 OJ **Research and practice on system integration of shock absorber welding robot workstation** [13445-108]
- 13445 OK **Research on the stroke control algorithm of agricultural push rod motor** [13445-121]
- 13445 OL **Research on CMOS image sensor based on circuit model simulation** [13445-30]
- 13445 OM **Progress and challenges of power decoupling technology in photovoltaic inverters** [13445-18]
- 13445 ON **Research on multidimensional data analysis method of electric power based on tensor network model** [13445-69]
- 13445 OO **Comprehensive analysis of the impact of wind power generation on voltage fluctuations and flicker in the power grid** [13445-29]
- 13445 OP **Intelligent analysis of structured data and development of RPA process component for on-line monitoring of high voltage cable** [13445-49]
- 13445 OQ **Harmonics analysis and suppression technology of wind power system** [13445-26]
- 13445 OR **Weather temperature prediction based on LSTM and transformer** [13445-12]
- 13445 OS **Low-frequency oscillation suppression methods for doubly fed induction generator** [13445-32]
- 13445 OT **Research on regenerative braking energy recovery strategy of electric vehicle based on driving style** [13445-125]
- 13445 OU **Real-time simulation of control algorithm of combined hybrid electric vehicle based on deep learning** [13445-119]
- 13445 OV **Design of the traffic light control system based on PLC** [13445-118]

- 13445 OW **Research on the prediction method of icing disasters on ultra-high voltage transmission lines based on spatiotemporal feature analysis** [13445-59]
- 13445 OX **Real time monitoring system for electrical equipment status based on improved ant colony optimization algorithm** [13445-14]
- 13445 OY **Research on anomaly identification method for power grid transmission channels based on spatial data** [13445-58]
- 13445 OZ **Strategies for designing and optimizing comparators with single and triple-bit outputs** [13445-20]
- 13445 10 **Four-bit absolute-value detector design and optimization** [13445-21]
- 13445 11 **Leakage current suppression in non-isolated grid-tied photovoltaic inverters** [13445-28]
- 13445 12 **Research on path planning strategy of data center inspection robot based on multi-sensor fusion** [13445-122]
- 13445 13 **Design of intelligent car of auto device** [13445-81]
- 13445 14 **Based on the Internet of Things and artificial intelligence design of smart city monitoring system** [13445-77]
- 13445 15 **Research on the integrated remote sensing platform of micro-synthetic aperture radar and multi-rotor UAV** [13445-112]
- 13445 16 **Characterization of suspension discharge photoelectric pulse in clean air insulated GIS** [13445-27]
- 13445 17 **Research on digital transfer and correction technology for 3D model of power grid** [13445-65]
- 13445 18 **Research on equipment training system for pumped storage power stations based on MR technology** [13445-133]
- 13445 19 **Application of intelligent wearable devices based on MR technology in maintenance of pumped storage power stations** [13445-134]
- 13445 1A **AI-based automated circuit design optimization technology** [13445-9]
- 13445 1B **Downlink power control and selection optimization in downlink-uplink decoupled access network** [13445-93]
- 13445 1C **Application research of mixed reality technology in maintenance tasks of pumped storage power station** [13445-135]
- 13445 1D **Algorithm for automatic charging path planning of unmanned aerial vehicle in substation based on artificial neural network** [13445-129]

- 13445 1E **Constructing and optimizing a digital intelligent power grid synchronous platform integrating big data and artificial intelligence** [13445-136]
- 13445 1F **Vibration and noise analysis and optimization of electric control cover plate of electric drive assembly of new energy vehicles** [13445-51]
- 13445 1G **Research and application of UAV-based intelligent bridge inspection methods** [13445-89]
- 13445 1H **Bearing fault diagnosis based on STFT-SWT and two-flow CNN-KNN** [13445-71]
- 13445 1I **Rolling bearing fault diagnosis based on t-SNE-GA-LSSVM** [13445-60]
- 13445 1J **Design of speed sliding mode control system for BLDC** [13445-55]
- 13445 1K **Motor bearing fault diagnosis method based on GJO-LSSVM** [13445-11]
- 13445 1L **Single-step prediction of motor fault current based on LSTM** [13445-70]
- 13445 1M **Fault diagnosis of elevator worm gear box bearing based on feature fusion** [13445-10]
- 13445 1N **PCB-based slotted rotor linear motor electromagnetic design** [13445-74]
- 13445 1O **A method for early warning and diagnosis of weak fault of rolling bearing** [13445-96]

Part Two

- 13445 1P **Blockchain and game-based optimal pricing approach for electric vehicles towards 5G** [13445-103]
- 13445 1Q **Traffic anomaly detection using optimized faster R-CNN** [13445-99]
- 13445 1R **Design and application analysis of function test platform for electronic control system of intelligent new energy vehicle** [13445-50]
- 13445 1S **Research on the mechanical structure of automatic watering robot with track design and six-axis robot arm** [13445-38]
- 13445 1T **Application of intelligent optimization algorithm in capacity configuration of CSP power plants** [13445-106]
- 13445 1U **Application of machine learning in power electronic system parameter optimization and adaptive control** [13445-117]
- 13445 1V **Research on control strategy based on MMC inverter** [13445-97]

- 13445 1W **Research on optimized scheduling of off-grid microgrids based on simulated annealing algorithm** [13445-104]
- 13445 1X **The research on bearing fault feature extraction based on improved morphological component analysis sparse decomposition algorithm** [13445-98]

ELECTRONICS

- 13445 1Y **Design of DC buck chopper circuit for battery charging based on Simulink** [13445-120]
- 13445 1Z **Optimization of tracking loop for positioning receiver based on MUSIC algorithm** [13445-42]
- 13445 20 **Design of electric tool holder of CK6150 CNC lathe** [13445-139]
- 13445 21 **Design of a portable IoT environmental monitoring system** [13445-57]
- 13445 22 **The designing and production of the multisim-based digital clock** [13445-5]
- 13445 23 **Analysis and application on enhancing CNN performance via FPGA integration** [13445-31]
- 13445 24 **Position measurement of target alignment based on 3D depth camera** [13445-113]
- 13445 25 **Studying photoelectric measuring device data fusion using the UKF algorithm** [13445-13]
- 13445 26 **Numerical experimental realization of erbium-doped fiber laser in the 1500-1550nm band** [13445-23]
- 13445 27 **A method for detecting SIP-based man-in-the-middle attacks** [13445-17]
- 13445 28 **Abnormal fault detection and intelligent prediction of power system based on deep learning** [13445-116]
- 13445 29 **Design and simulation of a DMA controller for FCoE transmission interface** [13445-43]
- 13445 2A **Research on inspection and quality control of electronic assembly process** [13445-73]
- 13445 2B **Research on cable assembly crimping connection technology** [13445-85]
- 13445 2C **Wiring design method of electronic equipment of control system and its engineering application** [13445-72]
- 13445 2D **Design of intelligent fire detection and alarm system** [13445-83]
- 13445 2E **Multimedia video processing magic box based on PGL50H** [13445-40]

- 13445 2F **Software and hardware co-design strategy of RISC-V chip for power business application**
[13445-124]
- 13445 2G **Implementation of a turbo code interleaver algorithm based on FPGA** [13445-105]

INFORMATION ENGINEERING

- 13445 2H **Construction and application of knowledge graph in cultural and creative product design**
[13445-144]
- 13445 2I **Three-dimensional point cloud reconstruction technical research based on the key points of UAV aerial** [13445-4]
- 13445 2J **Design and implementation of face detection and recognition system based on deep learning** [13445-111]
- 13445 2K **Role and challenge of artificial intelligence in power grid construction management**
[13445-130]
- 13445 2L **Optimization of spare parts configuration scheme for ship equipment based on multi-agent simulation** [13445-15]
- 13445 2M **Reliable image classification based on evidence and GCN** [13445-45]
- 13445 2N **Refinex-based enhancement study of low illumination blurred road pictures** [13445-126]
- 13445 2O **Study on digital interactive display of bronze patterns in western Zhou dynasty under holographic projection technology** [13445-142]
- 13445 2P **Advancing multimodal emotion analysis: integrating machine learning and deep learning approaches** [13445-22]
- 13445 2Q **Analysis of ancillary services for electric energy processing to address systemic uncertainty**
[13445-37]
- 13445 2R **Design of digital twin technology architecture for electric power supply service command collaboration** [13445-63]
- 13445 2S **Optimization method for equipment maintenance plan for power supply service command**
[13445-66]
- 13445 2T **Research on multi-party joint electric data value evaluation method based on optimized decision-making** [13445-78]
- 13445 2U **A dynamic resource allocation strategy for VoIP systems based on SIP** [13445-16]

- 13445 2V **Enhanced design of an English teaching resource management system utilizing collaborative filtering algorithm for optimal resource allocation and user experience** [13445-137]
- 13445 2W **Progress in image recovery technology based on deep neural network** [13445-8]
- 13445 2X **Panoramic mapping and interaction technology between real-world images and power grid real-world twins** [13445-64]
- 13445 2Y **Research on data security risks of intelligent connected vehicles based on bibliometrics** [13445-101]
- 13445 2Z **Application of target recognition in intelligent toll collection on highways** [13445-79]
- 13445 30 **Preparation of epoxy resin cavity defect sample and research on partial discharge characteristic of three different cavity size** [13445-48]
- 13445 31 **Research on high-precision target recognition method of insulators under multi-image complex background based on YOLOv5** [13445-84]
- 13445 32 **Virtual power plants achieve arbitrage through demand response in the electricity spot market** [13445-24]
- 13445 33 **Fused attention mechanisms-based facial expression recognition** [13445-25]
- 13445 34 **Constructing electrical and electronics curriculum group in mechatronics specialty group centralized comprehensive practice system and analysis** [13445-41]
- 13445 35 **Research on the development and application of highway intelligent information services based on vehicle road collaboration** [13445-82]
- 13445 36 **Application of machine learning algorithm to optimize power grid transmission pricing and its economic evaluation model** [13445-127]
- 13445 37 **Application of smart grid big data analysis in electricity price mechanism design and economic evaluation** [13445-128]
- 13445 38 **Nucleus image segmentation method based on attention mechanism and edge optimization** [13445-39]
- 13445 39 **Research on SAR image change detection based on image optimization technology** [13445-138]
- 13445 3A **Adaptive and generic improvements to ResNet Backbone in image classification** [13445-141]
- 13445 3B **A survey: research on image-based detection of concrete structure cracks** [13445-143]

Conference Committee

Conference Chairs

Witold Pedrycz, University of Alberta (Canada)
Mohammad S. Obaidat, University of Jordan (Jordan)

Program Chairs

Mufti Mahmud, Nottingham Trent University (United Kingdom)
Jianqi Li, Hunan University of Arts and Science (China)

Publication Chair

Shengqing Li, Hunan University of Technology (China)

Organising Chair

Jinhui Zeng, Hunan University of Technology (China)

Finance Chair

Bin Hu, Changsha Normal University (China)

Steering Committee

Yoon Dong Ki, Korea Advanced Institute of Science and Technology
(Korea, Republic of)

Park Jae Yeong, Kwangwoon University (Korea, Republic of)

Muralidharan Bhaskaran, Indian Institute of Technology (India)

Aly R. Seadawy, Taibah University (Saudi Arabia)

Duan Libing, Northwestern Polytechnical University (China)

Thiagamani, Senthil Muthu Kumar, Manonmaniam Sundaranar
University (India)

Bondyopadhaya Nilanjan, Visva Bharati University (India)

Liu Jianke, Shaanxi University of Science & Technology (China)

Bensafi Abd-Ei-Hamid, World Islamic Sciences and Education
University (Jordan)

Wu Zhiang, Nanjing Audit University (China)

Kulkarni Giridhar U., Jawaharlal Nehru Center for Advanced Scientific
Research (India)

Kwon Hyeukna, Yonsei University (Korea, Republic of)

Gupta Ravindra Kumar, King Saud University (Saudi Arabia)

Yeo Woon-Hong, University System of Georgia (United States)

Kappagantula Keerti, Pacific Northwest National Laboratory
(United States)

Wang Xianhui, Xi'an University of Technology (China)

Muthukrishnan Meena, Manonmaniam Sundaranar University (India)

A. A. Al-Muntaser, Sanaa University (Yemen)
