Volume 9669

Proceedings of SPIE 0277-786X, V. 9669

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Remote Sensing of the Environment: 19th National Symposium on Remote Sensing of China,
edited by Qingxi Tong, Boqin Zhu, Proc. of SPIE Vol. 9669, 966901 · © 2015 SPIE
CCC code: 0277-786X/15/\$18 · doi: 10.1117/12.2208201

Proc. of SPIE Vol. 9669 966901-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

- v *Authors*
- vii *Conference Committee*
- ix *Conference Sponsors*

REMOTE SENSING TECHNOLOGY AND MODELING

- 9669 02 **Study on light weight design of truss structures of spacecrafts** [9669-9]
- 9669 03 **An integrated compact airborne multispectral imaging system using embedded computer** [9669-14]
- 9669 04 **Studies on delay-Doppler mapping of GNSS-R signals** [9669-4]
- 9669 05 **Geometric simulation analysis of multi-band mosaic imaging from the same orbit by agile satellites** [9669-15]
- 9669 06 **On-orbit geometric calibration and validation of Optical-1 HR** [9669-2]
- 9669 07 **Monitoring soil moisture through assimilation of active microwave remote sensing observation into a hydrologic model** [9669-32]
- 9669 08 **Speed-up matching method with navigation data for UAV remote sensing images of coastal region** [9669-34]
- 9669 09 **The simulation of infrared point target detection based on bidirectional oversampling** [9669-37]
- 9669 0A **Image and spectral fidelity study of hyperspectral remote sensing image scaling up based on wavelet transform** [9669-21]
- 9669 0B **Study of data preprocess for HJ-1A satellite HSI image** [9669-24]
- 9669 0C **A rapid extraction of landslide disaster information research based on GF-1 image** [9669-10]
- 9669 0D **Impacts of different transformation models on remote sensing image registration accuracy based on implicit similarity** [9669-11]
- 9669 0E **Effectiveness analysis of ACOS-Xco₂ bias correction method with GEOS-Chem model results** [9669-18]
- 9669 0F **Research on geometric rectification of the Large FOV linear array whiskbroom image** [9669-23]

- 9669 OG **Detection of fault structures with airborne LiDAR point-cloud data** [9669-26]
- 9669 OH **Comparison of three empirical methods for water depth mapping with case study of Pratas Island** [9669-30]
- 9669 OI **Research on optimal path planning algorithm of task-oriented optical remote sensing satellites** [9669-7]

REMOTE SENSING APPLICATIONS

- 9669 OJ **The cross time and space features in remote sensing applications** [9669-8]
- 9669 OK **Framework design for remote sensing monitoring and data service system of regional river basins** [9669-22]
- 9669 OL **3D coseismic deformation inversion of Wenchuan Ms8.0 earthquake with D-InSAR and the fault movement model** [9669-35]
- 9669 OM **Remote sensing monitoring of the 2012 Beijing extreme rainstorm event** [9669-1]
- 9669 ON **Calibration and application of TRMM precipitation data in Irrawaddy River Basin** [9669-12]
- 9669 OO **The application of the unmanned aerial vehicle remote sensing technology in the FAST project construction** [9669-28]
- 9669 OP **Maize recognition and accuracy evaluation with GF-1 WFV sensor data** [9669-3]
- 9669 OQ **Improvement of remotely sensed vegetation coverage in heterogeneous environments with an optimal zoning approach** [9669-33]
- 9669 OR **A study on monitoring land use/cover change of mining area based on ticket-voting SVM classification** [9669-16]
- 9669 OS **Wetland change in Wangning during 2002 and 2013** [9669-29]
- 9669 OT **Temporal and spatial analysis of global GOSAT XCO₂ variations characteristics** [9669-20]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.
