Volume 11374

Proceedings of SPIE 0277-786X, V. 11374

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Bioinspiration, Biomimetics, and Bioreplication X, edited by Mato Knez, Akhlesh Lakhtakia, Raúl J. Martín-Palma,
Proc. of SPIE Vol. 11374, 1137401 · © 2020 SPIE · CCC code: 0277-786X/20/\$21 · doi: 10.1117/12.2572621

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Bioinspiration, Biomimetics, and Bioreplication X*, edited by Mato Knez, Akhlesh Lakhtakia, Raúl J. Martín-Palma, Proceedings of SPIE Vol. 11374 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

COLORS AND VISUALIZATION

- 11374 06 **Optical analysis on the Morpho butterfly's in-plane randomness using three-dimensional FDTD simulations** [11374-5]
- 11374 07 **Towards three-dimensional point cloud reconstruction of fish swimming** [11374-6]

BIOINSPIRED SOLUTIONS AND DESIGN

- 11374 0A **The ultimate bio-inspiration: how to build a self-replicating machine to colonize the Moon** [11374-9]
- 11374 0B **A coupled CFD and multibody analysis of the hydrodynamics of batoid fish** [11374-10]
- 11374 0C **Invasive alien species respond to biologically-inspired robotic predators** [11374-11]
- 11374 0E **Biologically inspired design for environment** [11374-13]
- 11374 0G **A flexible spiny structure featuring two anchoring points for enhancing the mobility of wall-climbing robots on rough surfaces** [11374-15]

SOFT ROBOTICS

- 11374 0J **The effect of resistive forces in variable recruitment fluidic artificial muscle bundles: a configuration study** [11374-19]

FLIGHT AND NAVIGATION

- 11374 0K **Bio inspired visual navigation over water** [11374-20]
- 11374 0L **The beam modelling of the hawkmoth wing structure** [11374-21]

MATERIALS II

- 11374 0S **Computational and experimental investigation of bio-inspired 3D printed prototypes** [11374-30]

POSTER SESSION

- 11374 0U **Experimental verification of motion pattern generation for peristaltic mobile robot using numerical optimization method** [11374-32]
- 11374 0X **Design of a biomimetic robot inspired to the cownose ray** [11374-35]
- 11374 0Y **Design of a soft pneumatic robot inspired to plant roots' growth** [11374-36]
