Proceedings Volume Millimeter, Submillimeter, and Far-Infrared Detectors and Instrumentation for Astronomy XI, 121901A (2022) <https://doi.org/10.1117/12.2630250>

**Event:** SPIE Astronomical Telescopes + Instrumentation, 2022, Montréal, Québec, Canada

**Online Publication Date:** 31 August 2022

**Erratum Published:** 6 August 2024

**Publisher's note:** this paper was originally published on 31 August 2022. A revised version was published on 6 August 2024. The original paper has been updated.

The original text made four references to Fig. 5h by the incorrect name of Fig. 4h. The figure was misnamed thrice on the bottom of page 6 and once in the caption of Figure 6. These references have been updated from Fig. 4h to Fig. 5h.
